

2023 Petition for NAEC Director Position

The business and affairs of North Arkansas Electric Cooperative are managed by a board of nine directors that exercises all of the powers of the cooperative except such as are by law, the articles of incorporation or bylaws conferred upon or reserved to members. The board of directors meets monthly throughout the year.

NAEC's bylaws outline the qualifications to become and remain a director. No person shall be eligible who:

- is not a member and is not receiving electric service from the cooperative at their place of residence in the county which they represent;
- is in any way employed by or financially interested in a competing enterprise or a business selling electric energy or supplies to the cooperative; or
- has been employed within the past three years in any capacity with the cooperative or any subsidiaries.

The person seeking nomination must submit a petition with the required number of signatures by close of business April 21, 2023, to the secretary at NAEC's Salem office. Signatures then will be validated by NAEC personnel. It is recommended anyone seeking a nomination collect more than 100 signatures to ensure the required number is reached in case some signatures are not validated. If submitted prior to the deadline and time allows, NAEC personnel will return a petition lacking 100 validated signatures to the person seeking nomination for completion by the deadline.

For more information, please contact NAEC at 870-895-3221 or see the NAEC bylaws. They are available at www.naeci.com/about-naec and any NAEC office.
